What symbols are not allowed for adding words to Custom User Dictionaries via product user interface?

Effective from WebSpellChecker version 5.28.4.0 onwards, the usage of the following symbols is prohibited when adding words to the Custom User Dictionary through the WProofreader UI (Dictionary tab):

- spaces;
- a full stop (dot) at the beginning or end of a word;
- symbols: ,"^$*+?=!:÷`\|/()[]{}><@%&#;_~
- symbols: u061F, u060C, u061B;
- symbols in ranges: u0001-u001F, u0080-u00B6, u00B8-u00BF, u2000-u200A, u200C-u2018, u201A-u266F, u2E00-u2E7F.

Kindly refrain from including any of these symbols in the words added to the Custom User Dictionary.
